

International Calling

International Calling

International calling may be made directly from many local telephone exchanges. If international direct dialing is available in your area dial **"011" - Country Code (see below) - City Code - Local Telephone Number**. Pressing the **"#"** button at the end of the number you are dialing helps connect your call faster. An example call to Naples, Italy would be dialed as follows:

011 International Access Code	39 Italy Country Code	81 Naples City Code	Local Telephone Number	#
-------------------------------------	-----------------------------	---------------------------	------------------------------	---

Below are codes for many countries. Numbers beside countries are "Country Codes." For "City Codes" and all other international points not listed in this section, or for Operator Assistance, dial "00," or use instructions provided by your international long-distance company. You may also visit the website: www.countrycallingcodes.com.

Country	Code	Country	Code	Country	Code	Country	Code	Country	Code
